

CARLISLE INFANT SCHOOL | YEARS 1 + 2

Afterschool Code Club

In our first term we dive into the world of **GAME MAKING!** Transform from a player into a game developer! In this hands-on workshop, children step behind the screen to learn exactly how their favourite games are made. They will unleash their creativity to design unique characters, build custom backgrounds, and use real coding logic to program their very own playable Flappy Bird game from scratch. It's the perfect way to turn everyday screen time into practical, creative skill-building!

In the second term, get ready for **MINECRAFT CHALLENGES!** Go beyond just playing and learn to control the Minecraft universe! Using the Java Edition, children will develop real computing and problem-solving skills by typing actual code. They'll master powerful chat commands to instantly change the weather, fast-forward time, and even teleport across the map. Whether they are total newbies or seasoned experts, they will build, craft, and code together in a fun, completely safe environment.

**“You can't use up creativity.
The more you use, the more you have”**

DATES

Fridays
17th Apr - 10th Jul

TIME

3:15 - 4:15 PM

PRICE

£ 108.90 for 11 weeks
of fun learning
